Smart Moves on Manner Castors

Just One Light Step

The patented reliable and easy-to-use Manner® SMART total lock castors facilitate daily routines in the field of medical care and rehabilitation.

Effortless operation

A castor locking system must operate fluently in changing work environments. That is why the design of Manner SMART is based on reliability and ease of use.

Reliability also means safety

The structure of the Manner SMART locking mechanism is designed to function reliably and safely - day after day, year after year. The simple, secured locking system meets demanding safety requirements.

Benefits:

- EASY-TO-USE**
- RELIABLE AND SAFE**
- ERGONOMIC**
- VALUE-ADDED DESIGN**

Total lock

Swivel

Directional lock

Conductive

Smart Moves on Manner Castors

EASY

- Easy-to-use pedals
- The locking cap and the lock release pedal are mounted onto the equipment frame and they do not turn with the castor
- Red and green colours and clear markings advise the user how to operate the locking system

SAFE

- Simple and secure locking system
- Maintenance free, since there are no wearing lock components and no need for adjustments
- Thanks to the special ball bearing, the castor turns easily and keeps on rolling smoothly throughout its entire life cycle
- The locking system cannot be harmed by wear or dirt on the wheel tread. The encased and stable structure of the castor protects the locking mechanism.

ERGONOMIC

- Locking and releasing is effortless, light and quick, which saves time and strain
- The pedals are always in view and within easy reach, regardless of the wheel's position

VALUE ADDED-DESIGN

- Manner SMART's intelligent design provides a solution with several advanced features, which benefit both users and equipment manufacturers
- Special colours and own branding is also possible
- Smooth housing surface ensures easy cleaning
