

Bumper for Tango castors

Made for mobile trolleys and similar devices, bumpers protect both trolley or equipment as well as doors and walls from damage in the event of a collision.

The form of the bumper emphasises the commendable design of the Tango castors. The soft thermoplastic rubber surface on the outer edge does not leave any marks. It absorbs sound and shocks and can endure hard use. The bumper can roll freely.

The bumper can be mounted on the adapter or the expander of a Tango castor. It can be used on Tango castors with either a tubular or square expander, or a threaded stem. The bumper is suitable for Tango castors of all sizes: 75 mm, 100 mm and 125 mm. The standard colour is grey RAL 7042.

Technical information

Bumper diameter	90 mm
Bumper material	Polypropylene centre, soft thermoplastic rubber (70 Shore A)
Code and title	Core of the threaded stem
303956 TSGK-90 PTE	10 mm
303957 TSGK-90 PTE-12	12 mm
	Core of the tubular expander
303958 TSGK-90 PTE/17-22	17–22 mm
303959 TSGK-90 PTE/25-37	25–37 mm
	Core of the square expander
303958 TSGK-90 PTE/17-22	17x17 mm, 22x22 mm
303959 TSGK-90 PTE/25-37	27x27 mm, 37x37 mm
Standard colours	Grey RAL 7042

Mounting a bumper on a Tango castor is quick and easy. The bumper can be mounted on the adapter or on an expander, under the bushing, with a standard 41 mm wrench.

When mounted on the castor the bumper elevates the overall height by 5 mm. The bumper can be ordered separately or ready-mounted on a GKT expander.

Bumper TSGK-90 PTE and
