### Technical data

|                                                                                     |                                   |                  |                                                                                     |                                  |                       |
|-------------------------------------------------------------------------------------|-----------------------------------|------------------|-------------------------------------------------------------------------------------|----------------------------------|-----------------------|
|  | Wheel diameter (mm):              | 160              |  | Hardness of the tread (shore A): | 95                    |
|  | Wheel width (mm):                 | 50               |  | Centre material:                 | Polyamide             |
|  | Load capacity (kg):               | 300              |  | Bearing type:                    | Ball bearing          |
|  | Overall height (mm):              | 195              |  | Fitting:                         | Rectangular top plate |
|  | Swivel radius (mm):               | 167              |  | Weight (kg):                     | 2.73000               |
|  | Fork material:                    | Steel            |  | Plate length x width (mm):       | 135X110               |
|  | Hole centres length x width (mm): | 110/100X/85/75   |  | Fastening hole diameter (mm):    | 11                    |
|  | Brake type:                       | Total-stop brake |  | Brake control:                   | Individual            |
|  | Tread material:                   | Polyurethane     |                                                                                     |                                  |                       |
