

## E-J-100 PTE A 200310

<b>Product type:</b>	Swivel castors with brake
<b>Product group:</b>	Equipment castors
	Conductive

Manner's equipment castor selection offers a diverse range of high-quality, durable and smooth running castors. The castors are designed to have a structure that is both durable and stylish. They are also highly reliable and safe. The forks are made of galvanised steel, and there is a variety of wheel options available depending on the application and operating conditions. The castors are available with a single action brake or total-stop brake, depending on the model.

### Technical data

	Wheel diameter (mm):	100
	Wheel width (mm):	23
	Load capacity (kg):	50
	Overall height (mm):	125
	Bolt hole diameter (mm):	10
	Fork material:	Steel
	Brake control:	Individual
	Tread material:	Conductive thermopl. rubber

#### Sh A Hardness of the tread (shore A):90

	Centre material:	Conductive polypropylene
	Bearing type:	Plain bearing
	Swivel radius (mm):	95
	Weight (kg):	0.3008
	Brake type:	Single action brake
	Special features:	Conductive
